~SEEING THE OBVIOUS!

Within the ABC family, one reality seems to dominate all others at this time. We have less money than we once had and that is forcing us to reduce our national and regional staffs. Staff reductions mean that ministries based in both our national program boards and our regional offices have been and will be reduced. Both churches and Ministerial Leaders will receive less from the denomination than before and expectations grounded in those earlier more financially flush times will be frustrated.

The only workable response is that churches and Ministerial Leaders will learn again to care for one another through networks of relationships. And, it seems to me, that nurturing those relationships are a primary opportunity before us.

Steve Bills recently honored me with an invitation to preach the sermon in his installation service as Executive Minister of the ABCO. I offer this sermon as a personal reflection grounded in the observation that we need to learn again to look after one another.

Second observation: the world has changed and is changing and will continue to change. At a recent meeting of the Professional Ministries Team, Steve Ott of the Ministry Development Center in Boston and Ross Peterson of the Midwest Ministry Development Center raved about the following book. ***The Great Emergence; How Christianity is Changing and Why*** by Phyllis Tickle. I'm about a third of the way through and it is worth the time. I've invited a review of the book for our next newsletter.

The context for ministry has changed and therefore ministry itself is changing. The single best way to navigate those changes is within a network of collegial relationships which brings us back to our primary opportunity. JK
